Introduction

Planning A Vacation Can Be Hard Work

Coordinating air travel, hotel stays, and attraction tickets while researching many accommodation options and planning a budget can be daunting.

However, research shows that regular vacationing can be a reset button for bodies and minds. Despite the benefits of vacation, over half of American employees leave unused vacation days at the end of the year.*

So, how can you make travel planning as fun as the actual trip? There are several ways to ensure you keep the vacation planning stress levels under control. For starters, allow yourself plenty of time to plan. The sooner you figure out your budget, accommodations and itinerary, the more time you'll have to resolve any issues that arise.

Simplifying Your Vacation Planning

What's another way to make vacation planning a breeze? Booking a vacation rental. Vacation rentals typically have many more amenities than a standard hotel and offer much more space to stretch your legs. In fact, timeshare rental units at resorts are on average nearly 3 times larger than typical hotel rooms.

Use this guide to help you plan your vacation budget and book your dream vacation using our easy-to-use website, [TimesharesOnly.com](https://www.timesharesonly.com). Our user-friendly website lets you search for the perfect timeshare rental using our filtering tool. You can refine your search by unit size, number of guests, price, and more! The Benefits of Booking a Vacation Rental

Renting a timeshare can offer you incredible advantages over traditional hotels. Most were custom built to take care of all your needs during your trip, from entertainment to dining—even health and fitness needs. If you are unfamiliar with the timeshare rental experience, you may be surprised by how much resorts offer.

1. Home Sweet Home

With a timeshare rental, you can enjoy the convenience of **condo-style amenities even when you're away from home**. Many resorts offer in-unit laundry facilities, full kitchens, living rooms, dining rooms, multiple bedrooms and private balconies. The amenities ensure you and your family stay comfortable throughout your trip.

2. Privacy for Days

Timeshare resort units are usually like apartments or villas offering you a level of privacy that isn't commonly found in a traditional hotel. **Many units offer multiple bedrooms**, ensuring you have privacy during your vacation no matter how many family members you are traveling with.

3. Don't Break the Bank

Vacation rentals are an affordable alternative to hotel accommodations. A typical hotel room is only 1/3 of the size of a timeshare unit. For families and couples on a budget, a resort rental gives you more bang for your buck!

4. Travel the World

Vacation rentals are available at resorts all over the world. On Timeshares Only's online vacation rental platform, **you can find vacation rentals in Aruba, Cancun, Hawaii, Canada, France, Spain, and Portugal**, to name a few. [Browse our marketplace of vacation rentals](#) to see all the destinations available.

5. Try Before You Buy

If you are considering buying a timeshare, renting a unit in that resort can give you a chance to really **try out the vacation ownership lifestyle** before you commit to a major purchase, giving you peace of mind!

Timeshares vs. Hotels

Which is better for you?

Timeshare rentals offer lots of perks over the traditional hotel experience. Why stay in a cramped room with little privacy and even less amenities when you can stay at an upscale resort?

Timeshares

Family-Friendly

Many resorts offer special programming created just for you and your family.

Average Unit Is 3x Larger Than a Hotel Unit

There's more room for you to kick up your feet and make the most of your vacation.

Timeshares Offer In-Unit Comfort and Privacy!

Condo-style units offer enough space for the whole family without sacrificing privacy.

Timeshares Offer A Lifetime Value!

If you decide to purchase a timeshare, you can look forward to a lifetime of vacation savings.

Hotels

Caters to Adults

Little to no kid-friendly activities available.

Average Unit Is 3x Smaller Than a Timeshare Unit

Forget putting your feet up - you'll barely have room for your suitcase.

Hotels Are Typically Studio Suites That Offer No Privacy

Who wants to sleep on the pull out bed?

Costs Increase Each Year

Hotel room prices increase every year, making your vacations more expensive each time.

Types of Vacation Rentals

Condos

Many timeshares are condo-style units that offer the same amenities as an apartment, such as fully equipped kitchens and separate bedrooms for added privacy.

Resorts

Resorts are large vacation destinations that aim to fulfill your every vacation need. They often include upscale amenities and services like on-site spas, fine dining, child care, etc. Many resorts feature condo-style units, villas, townhomes or cabins.

Cabins

A cabin is usually found in the country and is a cozy retreat that offers vacationers a chance to unwind. Cabins often have roomy interiors and offer added privacy due to their remote locations.

Studios

Typically open-spaced units where there is only one room. Studios are often smaller than the other vacation rental options but usually still offer a kitchenette. A hotel's primary offering is typically a studio suite.

Villas

A villa is typically a large vacation home with the same amenities you would find in a condo-style unit such as fully-equipped kitchens, laundry facilities, and separate bedrooms.

Vacation Budgeting

When planning a vacation on a budget, keeping it simple is vital. De-stress your vacation planning by using our free vacation budget worksheet.

There are four main categories of expenses to consider when planning your dream vacay. We also added a “fun money” category to cover miscellaneous and incidental costs. There will always be something that comes up, whether it's an impromptu shopping trip or an extra expense.

5 Essential Vacation Budget Categories

1. Transportation
2. Lodging
3. Food
4. Entertainment
5. Fun Money

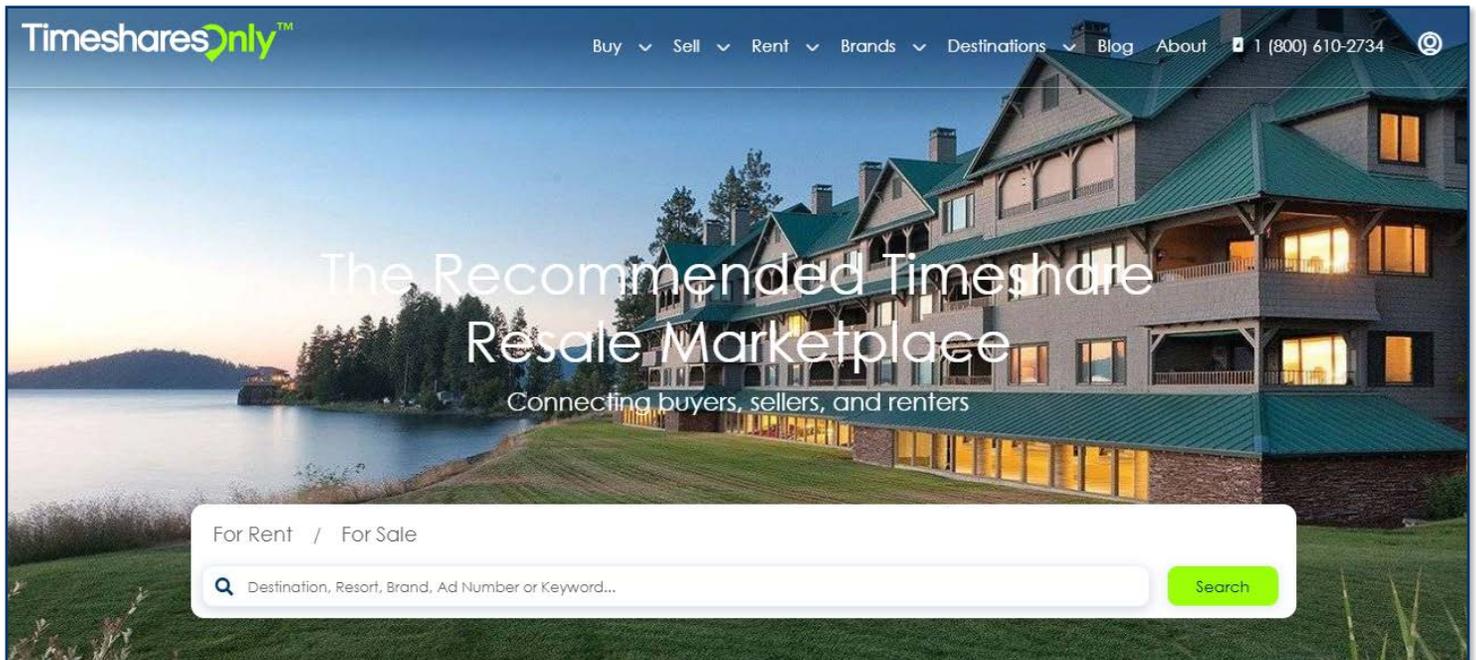

Each of these categories is then broken down into types. For example, when figuring out your “transportation” budget, it's important to note the difference between your flight costs and costs related to getting around in your destination such as taking busses, taxis or using a ride-sharing service such as Uber or Lyft.

*Note: Not all expenses may apply to your vacation. If you do not need to fly to your destination, leave that row blank.
